

Benefits of implementing Quanto ERP

01

"Quanto Manufacturing ERP enables efficient management of BOMs with various attributes, BOM stock inventory with attributes, SKU design, BOM purchase orders, GRN and BOM consumption."

02

"Quanto Manufacturing ERP allows for master management, enabling you to maintain multiple designs, barcodes, multiple rates, cutting ratios, size ratios, and manage images for each design and color, which helps facilitate centralized integration for ecommerce."

03

"Quanto ERP enables efficient production tracking against work orders with multiple designs and sizes. It also facilitates effective job work management across dynamic stages, including stitching, washing, ironing, packing, and more."

04

"Quanto Manufacturing ERP provides comprehensive features for managing sales orders, generating packing slips, planning deliveries, facilitating B2B billing, handling customer-specific pricing, generating E-way bills, and managing E-invoices."

Why Quanto?

INDUSTRY-TAILORED SOLUTION

Quanto Retail ERP is specifically developed for apparel manufacturers, addressing the complexities and demands of your production operations.

SEAMLESS INTEGRATION
